**Re: EQM Poseidon Midstream, LLC**  
**Annual Compliance Report – 40 CFR 60 Subparts 0000 and 0000a**  
**0000 Reporting Period: August 3, 2018 – August 2, 2019**  
**0000a Reporting Period: August 3, 2018 – August 2, 2019**

To Whom It May Concern:

EQM Poseidon Midstream, LLC (EQM Poseidon) hereby submits the annual compliance report for affected facilities subject to New Source Performance Standards (NSPS) 40 CFR 60 Subparts 0000 and 0000a. Per §60.5420(b) and §60.5420a(b), the initial annual report under NSPS 0000 and 0000a is due no later than 90 days after the end of the initial compliance period and the annual report is due no later than the same date as the previous year. EQM Poseidon reported 0000 affected facilities to coincide with the timing of the 0000a annual report. Thus, the due date for annual reports under NSPS 0000 and 0000a is October 31, 2019.

The NSPS 0000a affected facilities contained within this report include those that commenced construction between August 3, 2018 and August 2, 2019. Per §60.5410a, the initial compliance period for NSPS 0000a affected facilities begins on August 2, 2016, or upon initial startup, whichever is later, and ends no later than 1 year after the initial startup date or no later than 1 year after August 2, 2016 (note that the initial compliance period may be less than one full year).

With regards to fugitive monitoring, no monitoring surveys were waived under §60.5397a(g)(5). EQM Poseidon does not operate any well affected facilities, centrifugal compressor affected facilities, pneumatic pump affected facilities, pneumatic controller affected facilities<sup>1</sup>, storage vessel affected facilities<sup>2</sup>, processing unit affected facilities, or sweetening unit affected facilities as defined in NSPS 0000 or 0000a.

<sup>1</sup> EQM Poseidon does operate pneumatic controllers constructed after September 18, 2015, but they are either intermittent or low-bleed devices (or powered by air). As such, they are not pneumatic controller affected facilities under the rule.

<sup>2</sup> EQM Poseidon does operate storage vessels constructed after September 18, 2015, but VOC emissions from these vessels are less than 6.0 tpy. As such, they are not storage vessel affected facilities under the rule.
